, a noir horror series by writer Joshua Hale Flaikov and artist Rahsan Ekedal. Following the story of Brian Cohn, an expecting father with a long history of psychiatric problems, the comic explores the true nature of violence and whether or not murderous tendencies can be passed down from father to son. A mix of mystery and supernatural psychosis, ECHOES is a fresh take on the neo-noir genre with dark visuals and a haunting narrative.

And the best part? You can read it for **free**. We understand here at Top Cow that times are tough and you've perhaps had to cut back on the more fun things in life, but now, there's no reason for the tough economy to prevent you from sating your comic book hunger! Not only that, but each day's page is accompanied by an exclusive commentary from Flaikov about the conceptualization and making of the story, giving you extra insight into the behind-the-scenes process.

With all of these pros in mind, we urge you to check out Robot 6 and become immersed in the incredible world of ECHOES. Help support independent comic book creators in the easiest way possible and don't forget to share this discovery with your friends!
