Don't miss this gripping continuation of Think Tank with issue number seven!

Dr. David Loren's work on the 36 barrel/600 rounds per minute Metalstorm led to an epiphany that he no longer wanted to create inventions of destruction for the military. But David has lived a sheltered life behind the barricades of a government-contracted think tank and has never directly been forced to come face to face with the deadly consequences of his actions... until now.

Too anxious to wait and see the issue until Wednesday? Then check out the preview below!
