## Look Out for A Voice In The Dark

SOME PEOPLE BECOME KILLERS. ZOEY AARONS WAS BORN ONE.

In a story that could be described as DEXTER meets HEATHERS, A VOICE IN THE DARK follows Zoey Aarons, a new college student with a secret, troubled past. Haunted by a life that she took months prior, Zoey constantly struggles with her inner-demons, hoping they don't emerge and cause her to kill again.

Zoey's about to be tested and face temptation in ways far greater than she could ever imagine. Running a late-night radio talk show for the prestigious women's college she attends, Zoey learns that Cutter's Circle, California is a city with it's own dark secret; one that could awaken the demons within once again.

Creator Larime Taylor mixes tongue-in-cheek black comedy with gritty drama and suspense in this new thriller by Top Cow Productions, Inc. Born with a birth defect that leaves him with little use of his arms and legs, he writes, draws, tones, and letters the entire book himself, with his mouth.

A passionate book by a passionate person. How could you pass it up?

For those of you too impatient to wait for the book's release in November, check out the preview below.
